

Neighbourhood Watch report

Nice village and nice people - so it is a shame that mistakes like leaving cars unlocked, sat navs on windscreens and hand bags on seats have spoiled the year for some people. Please take a minute to lock them away so these unsavoury people cannot get their hands on them.

Register for e-cops [its free]. It gives all info about what is going on in the area; you might have seen something you did not think was worth it at the time - every little helps the police.

Two cars have been seen in the village acting suspiciously and the numbers reported to the police.

“Neighbourhood Watch and we are not buying it” stickers were handed out on the evening. Anybody needing more can collect them from:

Shelley Pearson
28 High Street
Hauxton

who has taken over as the new co-ordinator.

I wish her all the very best for the future

Bernard Lobb
